

DIY Canvas Art

Materials List

- 8x10 canvas board
- paint (red, orange & yellow)
- sponge brush
- electrical tape
- scissors
- ruler
- pencil
- newspaper to cover your work area
- your imagination

Instructions:

1. Place your canvas flat and using your ruler, make a design. The one here is shown as an example.
2. When you are happy with your design, use the electrical tape to form the lines.
3. After all the lines have been covered with electrical tape, now it's time to paint. Using a back and forth motion with the brush, add your paint to the canvas.
4. Keep painting until the white space is fully covered.
5. Let the paint dry and then remove the electrical tape.
6. We'd love to see how your art turns out! Share your photos by sending us an email hartfordpl@hartfordlibrary.org or posting them to our Facebook or Instagram pages.
