

Scrabble Tile Coaster

Materials List

- Scrabble Tile pieces - 16 total
- 4x4 piece of cork
- super glue

Instructions:

1. Remove the white backing from cork to reveal the sticky surface. Lay the cork with the sticky side up on a flat surface.
2. Carefully apply glue to the back of each scrabble piece and place on the stick piece of cork. Start gluing the scrabble tiles to the cork, pressing them closely together in a grid. It's best to start in the upper left hand corner, working your way across the cork adding pieces.
3. Repeat step 2 until all pieces have been glued down
